

Change Notice

New Shades of Colors for the Actuators

Type of Change:

- Engineering
- Part Number
- Product
- Appearance

FR01 DIP Rotaries

FR02 SMT DIP Rotaries

The current colors of the FR01 and FR02 actuators (as shown above) will be changing to different shades of the same color. This change will affect the Screwdriver, Plastic Shaft and Dial actuators of the FR01, and the Screwdriver actuators of the FR02. For both series, the standard and custom devices will be modified from the previous shades. This change **does not** affect the flammability rating of the actuators, which are UL94V-0 rated. In addition, there is **no change** to the material of the actuators.

Change of Actuator Colors	
From Current Color	To New Color
Real Coded with Orange Actuator	Real Coded with Light Orange Actuator
Complement Coded with Yellow Actuator	Complement Coded with Dark Yellow Actuator

Availability

FR01 and FR02 Series (including custom products) with the changes to actuator colors will be available with November 2008 production.
