

Change Notice S, ST, WT, LW, WR & WB Series

Change to Terminal Plating Material for S, ST, WT Toggles, LW, WR Rockers & WB Pushbuttons

Type of Change:

- Engineering Part Number
 Product Appearance

Specific toggles, rockers and pushbuttons will have a change to terminal plating material. These will include S, ST and WT Toggles, LW and WR Rockers, and WB Pushbuttons, for which terminal plating will convert from silver to tin. For S Toggles, the change will be on specific models with solder lug or screw lug terminals; for ST Toggles, models with solder lug terminals. For LW Rockers, all combinations will change (except LW3021A), and for WR Rockers, all with screw lug terminals; for WT and WB models, those with screw lug terminals. These revisions will effect both standard and custom products for these categories. The table below describes the difference before and after the revision, and the following tables list the effected part numbers for each series.

WT Toggle with Screw Lug Terminals
LW Rocker with Solder Lug Terminals

Terminal Plating Material Before Change	Terminal Plating Material After Change
Silver (Ag)	Tin (Sn)

S Toggles Medium/High Capacity with Solder Lug & Screw Lug Terminals

S301	S301T	S331T	S421T
S302	S302T	S332T	S422T
S303	S303T	S333T	S423T
S305	S305T	S335T	S425T
S308	S308T	S338T	S428T
S309	S309T	S339T	S429T

WT Toggles with Screw Lug Terminals

WT11T	WT15T	WT21T	WT25T
WT12T	WT18T	WT22T	WT28T
WT13T	WT19T	WT23T	WT29T

Notes

The change to the terminal plating material does not effect any other switch specifications. Contact factory if more details are needed.

Effective Date

Changes to material of terminal plating for S, ST, WT, LW, WR, and WB will be effective September 2016.
