Changes to Production for JF Illuminated, Non-illuminated & Indicators & JL Illuminated Tactile Switches

Type of Change:

- Engineering
- Part Number
- Product
- Appearance

Production Revisions for JF and JL Series

There will be production changes for JF Series tactiles to include illuminated, non-illuminated, and indicators, and for JL non-illuminated tactile switches. The place of manufacture will no longer appear on the products, and the NKK logo will be updated. The lot number on the switch will have a dot mark above the second digit. The box in which the devices are packaged for shipping will read "PHILIPPINES FACTORY" instead of "JAPAN FACTORY." All of these modifications will apply to standard and custom products for both series. The standard part numbers are on the following page.

	Identification	Logo	Lot Number	Shipping Box
Before Changes	"JAPAN" On Switch Case	Older NKK Logo 	Example of Lot Number with No Dot Mark 74	 "JAPAN FACTORY" printed on side of box
After Changes	"JAPAN" On Switch Case Removed	NKK Logo Updated 	Example of Lot Number with Dot Mark Above Second Digit 7 [•] 4	 "PHILIPPINES FACTORY" printed on side of box

Notes

There are no changes to JF or JL Series dimensions or specifications.

The location of logo or lot number on devices, or place of manufacture on shipping boxes, may vary depending on part number. Contact the factory if more details are needed.

Effective Date

JF and JL Series production changes will be effective January 2018.
